

Krantz participated in „ARABLAB 2015“ in Dubai

From March 23rd. to 26th. the Business Unit Krantz of Caverion Deutschland GmbH presented itself at „ARABLAB 2015“ in Dubai.

Designers, producers and users of laboratory and hospital equipment and services met at ARABLAB in Dubai. The exhibition was attended by all the key-players in the Middle East.

Together with their distribution partner for this region, MOOV General Trading Ltd. and HT Labor + Hospital-technik AG, Krantz presented its scope of delivery and supply in the range of filter and damper systems for bio-safety laboratories. Numerous visitors from all states in the Gulf region were interested in our products. Many interesting meetings were held which were related to actual projects partially.

In the course of the conference program which was integrated in the exhibition environment, the Head of Business Unit Mr. Claus Schweinheim hold four lectures. There was huge interest in these lectures and also there, as at the exhibition booth, many interesting contacts have been established afterwards.

During the event also the CEO of Caverion Deutschland GmbH, Mr. Werner Kühn, attended the exhibition and the Krantz booth.

Alexander Vonscheidt (r.), HT Labor + Hospital-technik AG, and Claus Schweinheim (2.f.r.) during a conversation with exhibition visitors
